

AMARI METHOD · SAN FRANCISCO

The Elbow Pain Study

We're looking for golfers with chronic pain on the inside of the elbow.

SOUND LIKE YOU?

- Dull ache on the inside of your elbow
- Grip hurts — club, bag, even a handshake
- Forearm tightness after the range
- 2+ weeks — not an acute injury

Pain is measured before and after each session — that's how we track results.

Free · 3 sessions · 15 min each · no obligation after the first
