

AMARI METHOD · SAN FRANCISCO

The Elbow Pain Study

We're looking for tennis and pickleball players with chronic elbow pain.

SOUND LIKE YOU?

- Burning or aching on the outside of your elbow
- Grip hurts — racket, jar lids, a firm handshake
- Forearm soreness after a match or session
- 2+ weeks — not an acute injury

Pain is measured before and after each session — that's how we track results.

Free · 3 sessions · 15 min each · no obligation after the first
