

AMARI METHOD • SAN FRANCISCO

The Foot Pain Study

We're looking for people on their feet all day with chronic heel or arch pain.

SOUND LIKE YOU?

- Heel stabs when you stand up after sitting
- Builds through your shift — worse by end of day
- Arch ache after hours on hard floors
- 2+ weeks — not a recent foot injury

Pain is measured before and after each session — that's how we track results.

Free • 3 sessions • 15 min each • no obligation after the first
