

AMARI METHOD • SAN FRANCISCO

The Jaw Tension Study

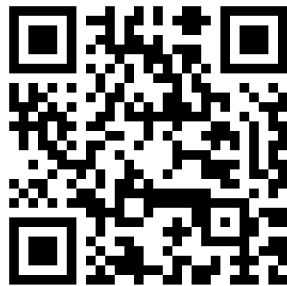

We're looking for people with TMJ pain or jaw tension that won't let up.

SOUND LIKE YOU?

- Jaw aches when you open wide or chew
- Clicking or popping at the joint
- Temple headache or ear fullness
- 2+ weeks — not a recent dental injury

Tension is measured before and after each session — that's how we track results.

Free • 3 sessions • 15 min each • no obligation after the first
