

AMARI METHOD · SAN FRANCISCO

The Foot Pain Study

We're looking for runners with chronic heel or foot pain that keeps coming back.

SOUND LIKE YOU?

- Sharp heel pain with first steps out of bed
- Flares on long runs or after mileage jumps
- Arch or calf tightness that won't loosen
- 2+ weeks — not a stress fracture

Pain is measured before and after each session — that's how we track results.

Free · 3 sessions · 15 min each · no obligation after the first
