

AMARI METHOD · SAN FRANCISCO

The Jaw Tension Study

We're looking for people who grind or clench their teeth —
with jaw tension that won't let up.

SOUND LIKE YOU?

- Wake up with a sore, tight jaw
- Temple pressure or headache by end of day
- Jaw clicks, pops, or feels locked
- 2+ weeks — not a recent dental injury

Tension is measured before and after each session — that's
how we track results.

Free · 3 sessions · 15 min each · no obligation after the first
